***Response to Amendment***

Applicant's arguments filed October 26, 2004 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last office action

Claims 10-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Database WPI of record on 1449.

The rejection is maintained for the reasons as stated in the last office action and for the following reasons:

Applicant's arguments are based on the types of polyamines, as amended, to be polyalkylene polyamine and polyalkylene glycol polyamine. Note that said arguments have been fully considered but they are not persuasive since the polyamines, as amended, are included in the broad teachings of the reference in the use of amines unless Applicant provide evidence that they are different.

Claims 12, 13, 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12-13, 18-19 are indefinite in that the triethylene triamine, triethylene tetramine, tetraethylene tetramine, tetraethylene pentamine are not included in the polyalkylene polyamine amine component.

---

Claims 12-13 and 18-19 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for polyalkylene polyamines and polyalkylene glycol polyamines as amine cure accelerant, does not reasonably provide

enablement for polyalkylene polyamine amine cure accelerant. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

The use of the term "polyalkylene polyamine amine cure accelerant" as amended raise the problems in that it does not determine what are the difference between the polyamino group and the amino group.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
